The Industrial Fair Network 2024

On November 8, 2024, the four-day Hannover's Industrial Fair Network 2024 was successfully concluded. Backed up by a year of careful preparation, this annual industrial event returned with glory in a new image of joint exhibitions.

Nine industry exhibitions from the upstream and downstream, including PTC ASIA, CeMAT ASIA, ComVac ASIA, Heavy Machinery Asia, CISSIE, E-pack Tech, ISA, FBC and Cold Xpo, were presented in tandem. Boasting an area of nearly 220,000 square meters, the exhibitions attracted more than 3,100 exhibitors to jointly explore the future development direction and market trends of intelligent manufacturing, as well as the participation of nearly 140,000 trade visitors.

The Industrial Fair Network 2024

X Forum

A brand-new thematic zone—TIFN X Space made its debut at the Industrial Fair Network 2024. As a highlight at the scene, X Forum pooled senior experts in the field of intelligent manufacturing to engage in extensive industry-wide discussions around leading topics such as future factories, artificial intelligence and green manufacturing. It was the first time that the organizer connected the upstream and downstream of intelligent manufacturing and presented content that addressed the barriers of themed exhibitions.

Thematic Commemorative MetroCard

Collaboration with Metro APP, to Put a City Mark on the Intelligent Manufacturing Platform

For enterprises, CeMAT ASIA, a large-scale international exhibition for the material handling and logistics technology industry in Asia, has become the “main battlefield” for releasing new products. With a display area exceeding 80,000 square meters, this year’s event has gathered more than 900 domestic and foreign quality exhibitors engaged in system integration and solutions, machine vision, industrial control products, conveying and sorting, logistics robots and AGVs, forklifts and accessories, packaging equipment and pallet turnover boxes, industrial unmanned driving, casters, lifting and other logistics-related fields to participate in nearly 40 concurrent forums on site, during which “Digitalization & Intelligence” and “Low-Carbon Logistics” have become frequently-used words.

Display area:
over 80,000 square meters

Exhibitors:
More than 900

Trade visitors:
Nearly 140,000 people

Buyer groups:
More than 500

Professional forums & events:
Nearly 40 sessions

**Visitors from overseas and
Hong Kong, Macao and Taiwan:**
8.97%

Key Exhibitors

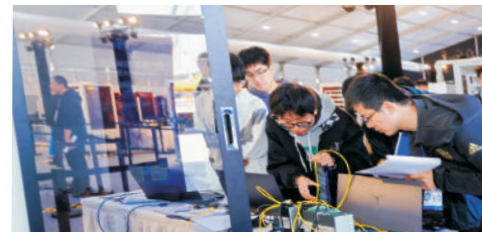

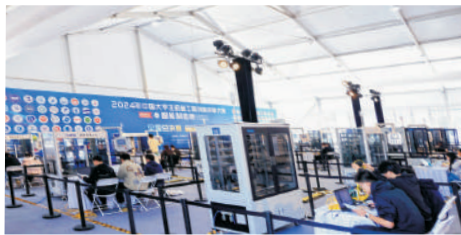

*Partial exhibitors listed in no particular order

Concurrent Forums and Events

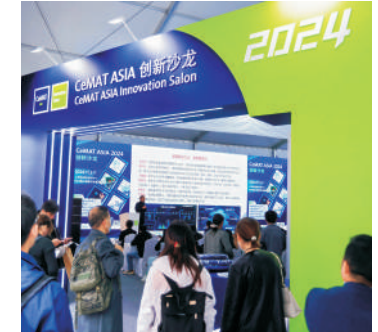

Nearly 40 supporting activities were held concurrently with this event, such as the core brand forum—CeMAT ASIA Innovation Salon, 2024 Chinese College Students Mechanical Engineering Innovation and Creativity Competition—Intelligent Manufacturing Competition, and "Smart Logistics Chain, Digital Innovation for New Quality Productive Forces" Logistics Technology Innovation Forum. Through this platform, exhibitors and trade visitors were able to gain a deep understanding of the future development trends and market opportunities of the manufacturing sector, and a new idea and new direction were provided for the integrated development of manufacturing.

Visitors' purchasing decisions:

Representatives of exhibitors:

Steve Cheung, President of Dematic Asia and Greater China Dematic International Trading Ltd., Shanghai

"Reputed as the benchmark of Asia's logistics industry, Hannover's Industrial Fair Network plays an important guiding role in the field of logistics equipment. By implementing the Asian strategic layout and a new business model, Dematic has realized the sharing of IT and other resources between Asian teams and Chinese teams, and fostered whole-process cooperation. Through the platform provided by CeMAT ASIA, we hope to attract more visitors from China and other parts of Asia and help our industry customers to go global more smoothly. Gaining a lot from this year's CeMAT ASIA, we sincerely wish CeMAT ASIA 2025 will continue its glory and achieve a new record in scale and influence!"

Chen Saimin, responsible person of Hangcha Group Co., Ltd.

"At the exhibition, we came into contact with many high-quality customers from home and abroad. Masses of foreign professionals and business groups have visited our booth for supply-demand matchmaking, sharing industry development trends, and exchanging with us on the latest technological innovation. With professional support from the organizer throughout the process, the atmosphere of our booth was animated. Wish this exhibition greater success in the future."

Cai Hua, Vice President of Domestic Marketing Hangzhou Hikrobot Co., Ltd.

"CeMAT ASIA is a highly influential and professional exhibition platform in the logistics industry, attracting numerous domestic and foreign logistics companies. Through this event, Hikrobot has not only made acquaintance with many new friends, but also strengthened our ties with old friends." Mr. Cai stressed, "In the future, we will continue to focus on the core technology of robots, strive to provide customers with safe and reliable products and systems of intelligent mobile robots, and deliver intelligent on-site logistics solutions to factories."

Li Chao, General Manager Shanghai Swisslog Technology Co., Ltd.

"Look forward to the greater success of CeMAT ASIA so that it can constantly serve as a leading platform and grand event for industry exchanges."

Representatives of exhibitors:

The exhibition showcases cutting-edge logistics technologies and products, intelligent warehousing, automated sorting systems, etc.

The automated shelf technology has made shelves higher and wider for more efficient service!

Many new ground-breaking technologies are on display.

Logistics handling technologies have been comprehensively upgraded.

The distribution of exhibition halls and forums is scientific.

The interactive experience zone attracts the participation of many visitors.

There are also lectures on the trend of the logistics industry.

We have followed up with related manufacturers for further cooperation opportunities.

The vehicle pickup arrangements for group visitors are smooth. The entry services provided by the staff is very convenient. Overall, the organization work is very considerate.

The “Enjoy Meeting” project has enhanced the efficiency of group visits.

Newly Upgraded “Enjoy Meeting” Project
